**RESPONSE AND SPECIES ELECTION**

This responds to the Office action dated March 7, 2003. A one-month period for reply was set making an answer due by April 7, 2003. Applicants request reconsideration of the request for election in view of the following remarks.

**REMARKS**

Applicants elect, with traverse, the species of a ghost artifact cancellation technique using a converter and a phased array combiner. All pending claims (1-31) read on the elected species. Since all claims currently read on the elected species, applicants disagree that a search including the species of varying phase encode order and adaptive computation presents an undue burden for the Examiner.

Applicants note that upon allowance of a generic claim, claims to additional species written in dependent form should be allowable. If any issues remain to be addressed, the Examiner is invited to telephone the undersigned attorney at the Portland, OR telephone number listed below.

Respectfully submitted,

KLARQUIST SPARKMAN, LLP
